

Age Group Guidelines

Bowls Victoria does not currently offer an entry level program for 12 years and below and therefore we understand that your Roll Up program may attract a younger demographic at times.

In the scenario where you have children under the age of 12 years we recommend the following guidelines:

Where possible separate your program into two groups - 12 - 17 years and 11 < and have them participate in different modified games/activities.

Where possible, deliver two completely separate Roll up programs for each age group on separate evenings or at separate times.

Ensure you are providing activities/playing games that have been modified to match the maturity level of all children and youth involved
